

EDP University offers the following benefits to its students:

- 01 Accredited by the Middle States Commission on Higher Education (MSCHE). [Access accreditation information](#)
- 02 Academic track of over 50 years in Puerto Rico and more than 10 years of experience educating nursing students that reside in the United States.
- 03 We offer a variety of modalities such as on-site and online programs. However, EDP University adapts to the student's needs and offers the opportunity to combine courses from both modalities. Students may enroll in both online and traditional courses at any of our campuses. The online programs constitute the go-to alternative for those interested in the convenience of accessibility and active learning.
- 04 Within the academic calendar, EDP University provides two alternatives: a semester academic period and a bimester academic period. These alternatives allow students to enroll in semester courses as well as in accelerated 8-wk courses under the Accelerated Adult Modality.
- 05 The five academic units ([map](#)) who offer student services through the Academic Support Center. Virtual or online students receive academic support through the Distance Education Department.
- 06 EDP University offers the "Prior Learning Assessment" alternative for undergraduate programs, which focuses on helping the student achieve their academic degree in an accelerated modality. Students that participate in this assessment uses their prior experience to convert it into equivalency course credits. The student's assessment is performed through a variety of alternatives while keeping the academic standards, such as: portfolios, simulations, and equivalency exams, among others. For more information, you may request an assessment evaluation by sending an email to yadirah.soto@edpuniversity.edu
- 07 The Hato Rey and San Sebastian campuses offer a Child Care and Development Center called Kids @ EDP for the children of students while they study. [See details](#)
- 08 All our laboratories have state-of-the-art equipment to reinforce the academic development of our students and prepare them for the working world.
- 09 Our students are supported by the Placement Office. The office establishes a link between private and public sector businesses in order to provide job opportunities for our students and graduates to be employed in their field of study.
- 10 Our students Entrepreneurship Center, where they train the participant to develop their own business, through education and administrative tools.
