

Message from the Chief Editor

Dear colleagues,

It is with great honor that I present to you the fifth issue of the HETS Online Journal. We continue to provide a forum for you to share your knowledge with other outstanding researchers and educators interested in technology in education and training. We commend all of you for the important role you have in increasing scientific approaches to this field.

HETS is confident that the new global exposure through EBSCO databases will provide to the journal would be an excellent opportunity to share our knowledge focused on Hispanic and the integration of new technologies in Education. In addition, we are certain that our articles will be an asset to researchers using their research database system.

We are sure that you will find these articles of interest and look forward to increasing the wealth of evidence based approaches to incorporating technology in education and corporate training. I encourage you to continue producing high quality research which contributes to the betterment of our society.

Respectfully yours,
Dr. Ivonne Chirino-Klevans
