

Message from the Chairman

In this new academic scenario, due to the COVID-19 Pandemic, I am thrilled to present the [Spring Issue, Volume XI](#), of this publication. The HETS journal traditionally addresses relevant topics impacting technology and Hispanic Students; this issue is no exception. The Spring issue is the fourth volume that we integrated new areas of interest, including student retention and assessment and the critical topic of student access. Also, we are delighted to announce that this publication included the ISSN 2693-9193 number that has been granted to our Online Journal.

This activity is the first phase of a plan to increase the visibility and possibility of the Journal articles citations after an analysis carried out in the 38 criteria for evaluation of electronic journals of the LATINDEX Organization.

I invite you to share the link to this Journal with your colleagues. Moreover, if you have an innovative project or would like to share your knowledge and experience in any of these areas impacting higher education, please consider submitting an article for Volume XII to be published in Fall 2021 on or before September 24, 2021. Also, we invite new reviewers to join this effort. If you are interested in serving as a reviewer, please submit a letter of interest with a copy of your curriculum vitae to info@hets.org.

Sincerely,

Dr. Carlos Morales
