

Education And Development On A Human Scale

From seedlings to fruits

Human Development Paradigmatic Shifts

A Declining Model

An Emerging Approach

Model In Decline

Society

- ◊ Supremacy of man over nature
- ◊ Supremacy of a few over many others
- ◊ Supremacy of having over being
- ◊ Supremacy of reason over faith

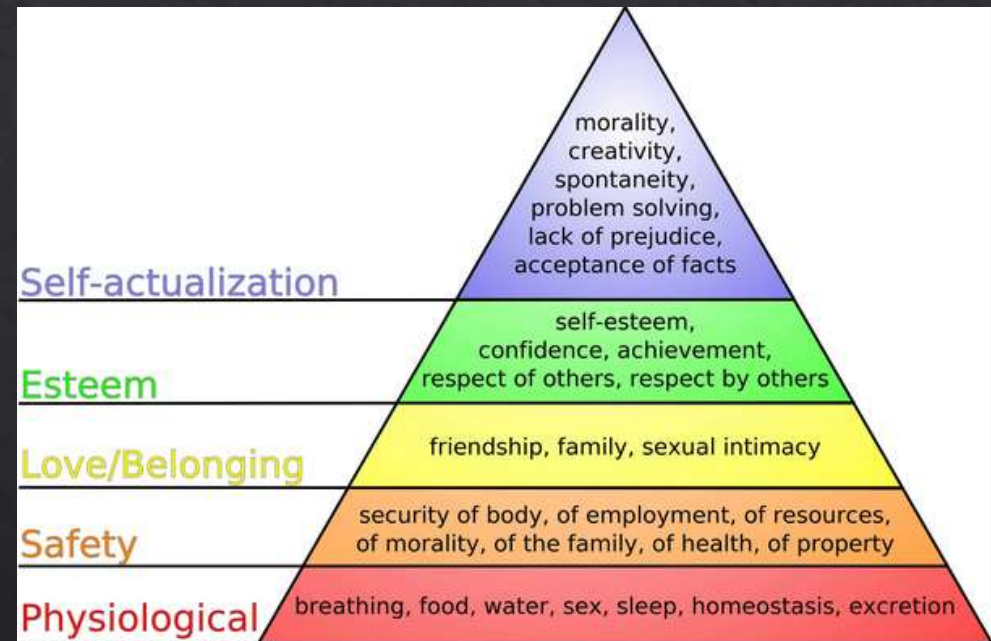

Person

- ◊ Individualism
- ◊ Rivalry
- ◊ Triumphalism
- ◊ Dissociation
- ◊ Loneliness
- ◊ Anxiety

Development

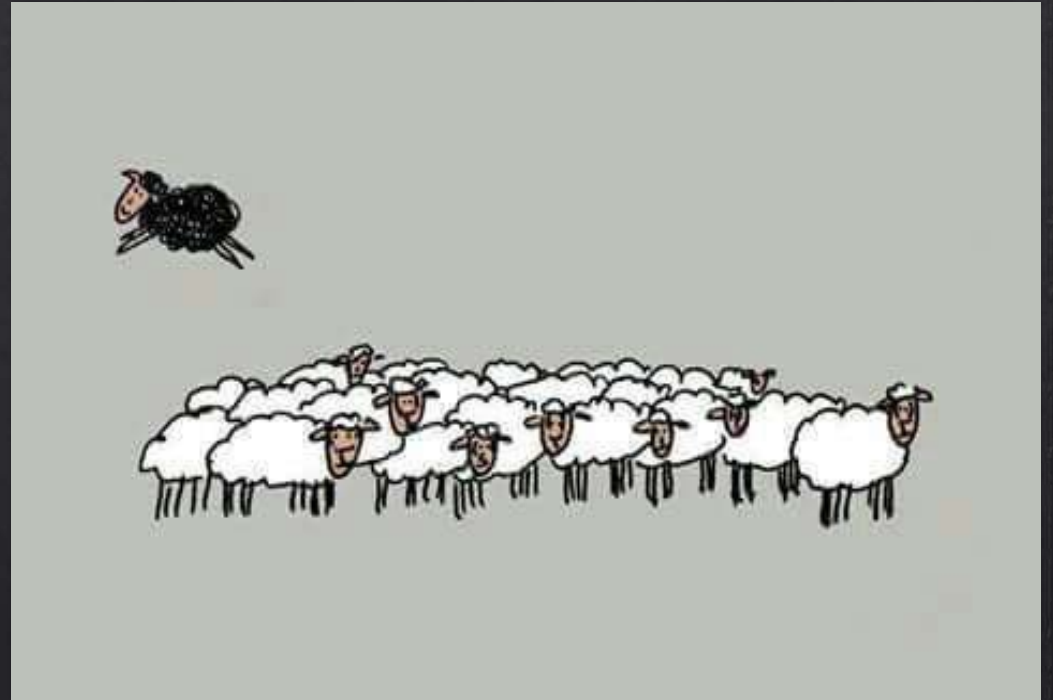

- Understood as growth and accumulation of wealth
- Based on Maslow's vision of human needs

gems of inestimable value.
Education can, alone, cause it to
reveal its treasures, and enable
mankind to benefit there from.”

Education on a Human Scale

Foundations Of An Emerging Vision

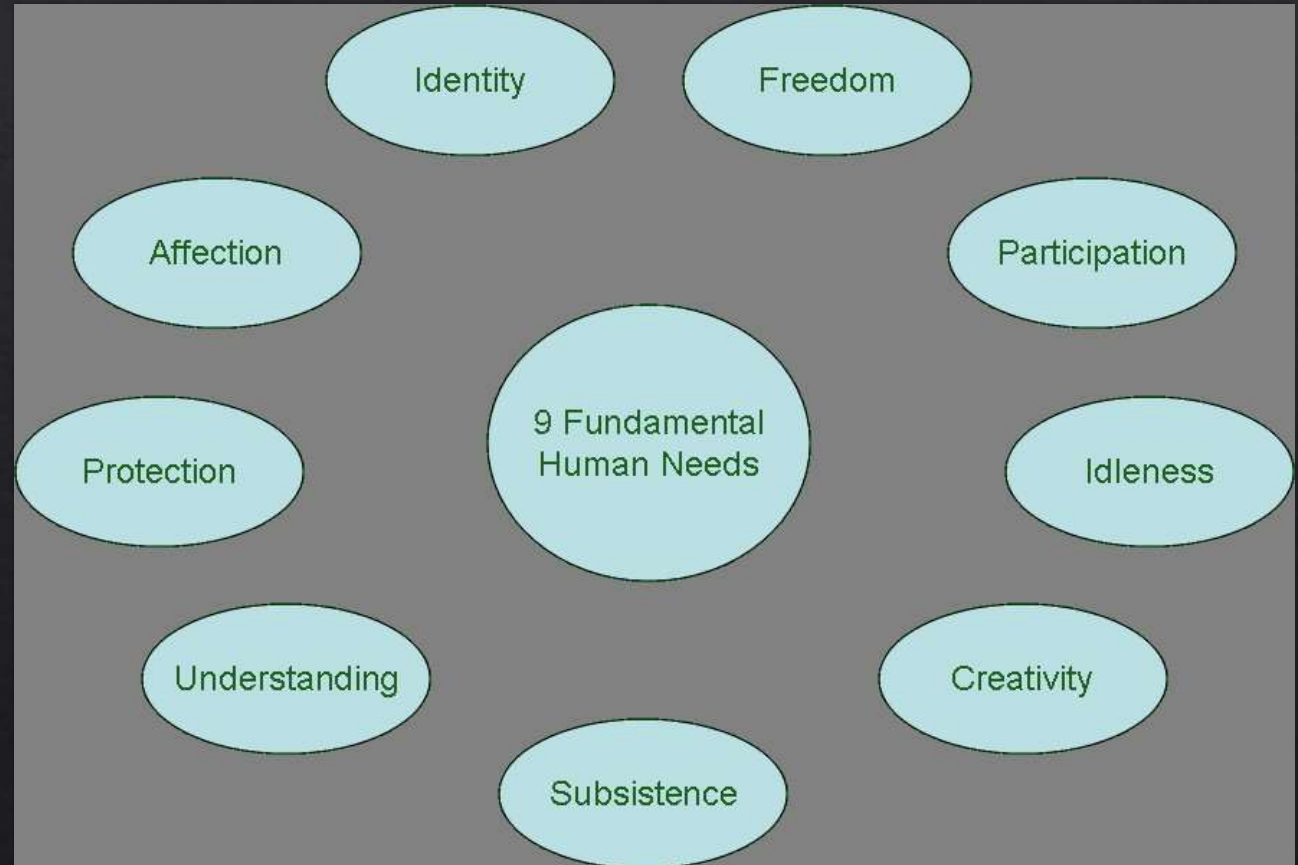

Development is going from potency to action

From seedling to fruit

Sustainability Through Synergy

- ◆ We have fundamental physical, intellectual, and spiritual needs that make us a synergic reality
- ◆ Unfulfilled human needs result in individual and social pathologies

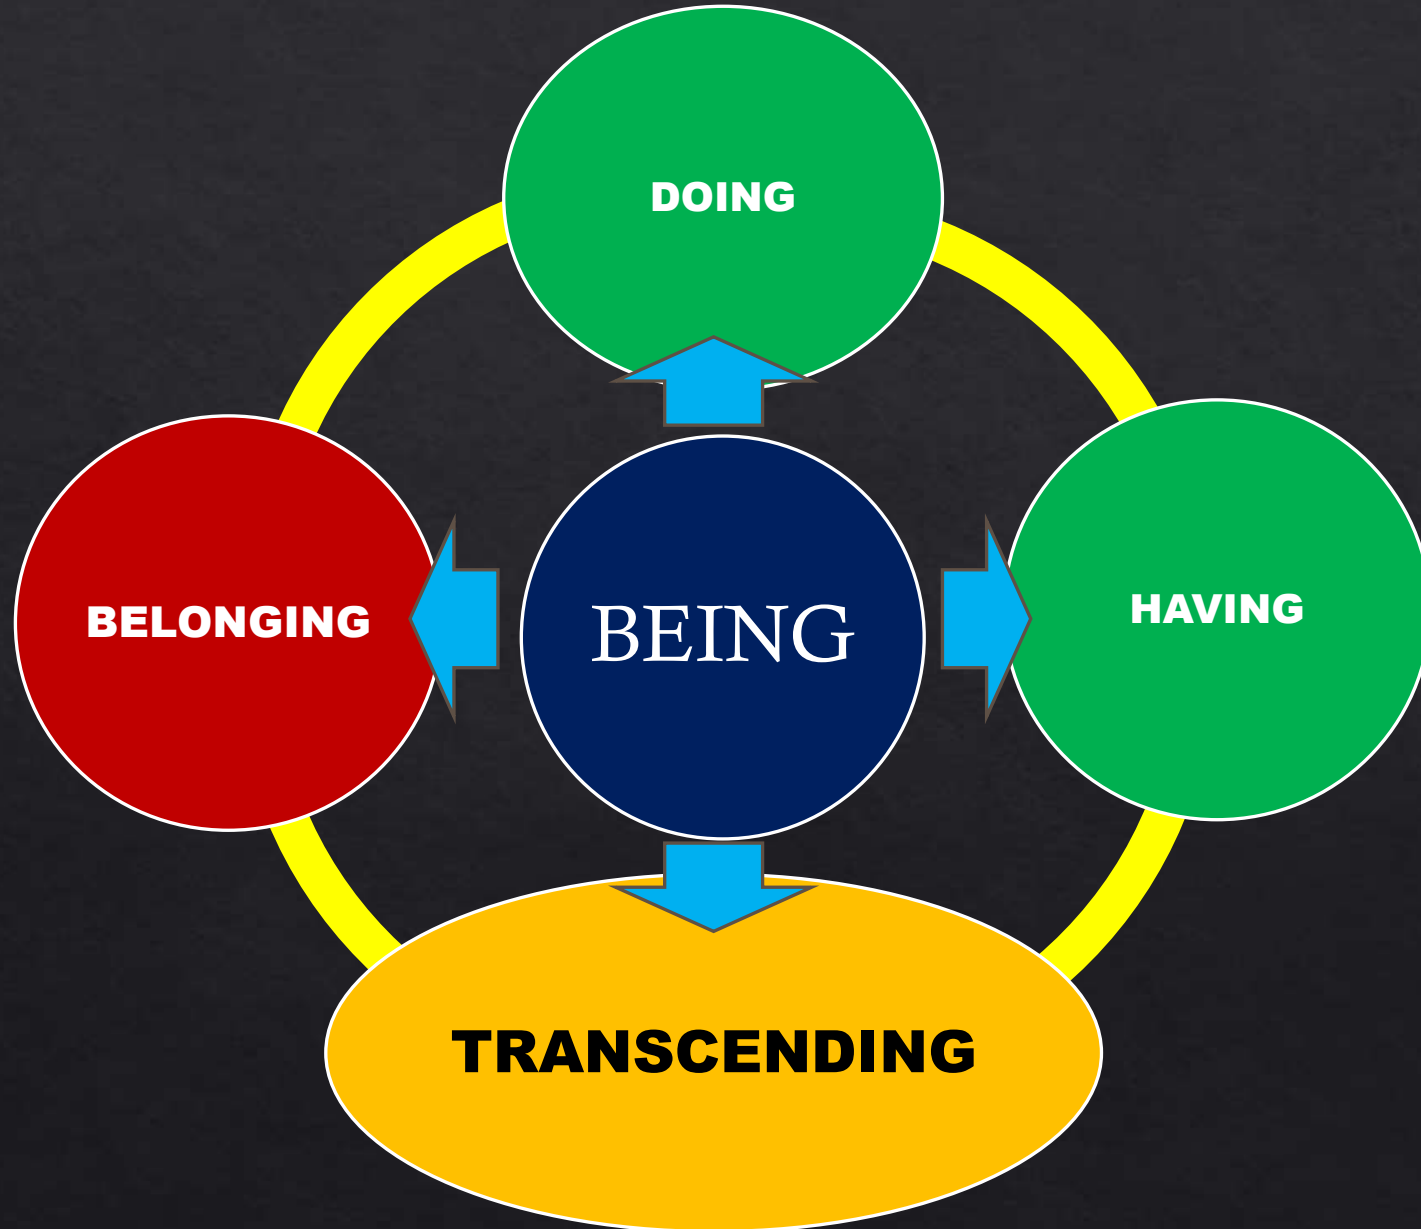

Human Development

Human development entails the synergetic and simultaneous fulfillment of all fundamental human needs

The Dimensions Of Living

Being has to do with our principles, values, and our way of seeing the world

To Educate is to Accompany, to Open the
Doors to New Worlds, to Amaze, to Love and
Cherish the Rainbows and the Contrasts
Between Light and Dark, to Share Dreams,
Fears and Challenges....Walking Side-by-
Side not Becoming the Shadow, Free of
Judgement. Free of Levies...To Educate is to
Trust, to Love, to Give and to Receive.
Transcending.
