Dear Dr. DiLorenzo,
As the director of our department, I would like to request your nomination to the HETS Learning Technologies Leadership Academy (H-LTLA). I am interested in participating in this continuing education opportunity as among its goals is to prepare professionals to support and transform the educational environment to become more resilient, flexible, and relevant. In this academy, renown leaders in the higher education community will present a variety of topics, including accreditation, data for digital learning, and academic technology. Developing knowledge on these topics goes beyond my interest in professional development, these topics will be essential for the post-pandemic university. I believe that my qualifications, leadership strengths, and professional development track demonstrate that I am a good candidate to participate in the H-LTLA, which will redound to our department's benefit. Attached you will find my resume, and a link to my e-portfolio. Also attached, you will find the H-LTLA information brochure.

Sincerely,
Dr. Graciela Tesán
Assistant Professor
Department of Social Sciences and Humanities
Inter American University of Puerto Rico, San Germán
