

November 5, 2024

Dear Luis,

If there is one thing that I would add to Bronx Community College is that I would create an introductory library one credit course that would be mandatory for all new students. I have found that many students don't know the amount of resources provided in an academic library. That in my opinion puts students at a disadvantage. If we as an institution can teach incoming freshmen on the functions, resources and importance of the library then we turn a disadvantage to an advantage. I believe all students should be privy to everything an academic library provides. Also, I believe that it is important to teach students how to navigate an academic library (LCC, call numbers) because students will use the library a lot more than they know.

Sincerely,

Julio J. Carrillo
